Hightown Jottings. HIGHTOWN, Va., May 12.--Our country is now looking its best. It is as attractive and winsome as the charming maid of sweet sixteen. The fields are unusually green for the season, and the forest trees are keeping pace. There is a promise of a good fruit crop.

The "fad" of society are on the increase. They seem to be trivial, but they are not. Every movement has its consequence. The "fad" of beer drinking may look trivial. It is followed by the "fad" of kidney disease, as a direct consequence. And that is not trivial. That means the grave and is solemn. The situation would be truly alarming and threaten the extinction of the race were it not for two things.

1. There is always hope of reformation in the hearts of the people. When the dangerous increase of kidney disease is sufficiently sounded, there will be reform. This will assure future generations.

2. As to the afflicted of to-day, a knowledge of Dr. Fenners' Kidney and Backache Cure will restore all who are adroit enough to resort to its use before it is too late. Also cures female weakness, heart disease, rheumatism and all blood diseases. It will neither deceive nor disappoint. If you need take a bottle home with you to-day. Delays are dangerous. Money refunded if satisfaction not given.
